Hip implant appendix SIRIS Report 2023

Uncemented stem-cup combinations used in primary OA

Uncemented stem	Detail of stem included	Uncemented cup	Details of cup included
Accolade II	mix of 127° and 132°; no dominant variant	Trident II	mix of Tritanium clusterhole and Tritanium solidback; no dominant variant
Actis	all collared; mix of high size and standard size; no dominant variant	Pinnacle	85% Pinn 100 w/Gription variant; minority Pinn Sector w/Gription and Pinn 100 without coating information
Alloclassic	76% SL; minority Offset variant	Alloclassic	98% CSF Anchor; minority VARIALL Shell
Alloclassic	79% SL; minority Offset variant; individual cases of SLL REV stems included	Allofit	85% Allofit-S Allocassic shell; minority Allofit Allocassic shell
Alloclassic	64% SL; minority Offset variant	Fitmore	97% "W SCR CONES" variant; minority with fins
Amistem-H	n.a.	Mpact	100% two-holes variant
Amistem-H	n.a.	Versafitcup trio/ccl.	2017 and later: 100% Versafitcup Trio cups; 30% of those are of the no-hole variant; before 2017: 16% CC light
Amistem-H collared	n.a.	Versafitcup trio/ccl.	100% Versafitcup Trio cups
Amistem-H prox coating	n.a.	Mpact	mix of no-hole and two-hole; no dominant variant
Amistem-H prox coating	n.a.	Versafitcup DM	n.a.
Amistem-H prox coating	n.a.	Versafitcup trio/ccl.	100% Versafitcup Trio cups; mix of no-hole and two-hole; no dominant variant
Amistem-P	n.a.	Mpact	mix of no-hole and two-hole; no dominant variant
Amistem-P	contains 4% collared variant	Versafitcup trio/ccl.	100% Versafitcup Trio cups; 35% of those are of the no-hole variant
Ana.Nova alpha proxy	n.a.	Ana.Nova alpha	n.a.
Avenir	n.a.	Ades DM	n.a.
Avenir	n.a.	Alloclassic	88% Allocassic VARIALL; minority CSF Anchor
Avenir	n.a.	Allofit	85% Allofit Allocassic; minority Allofit-S and Allofit-C
Avenir	n.a.	Avantage	n.a.
Avenir	n.a.	Fitmore	2017 and later: 98% "W SCR CONES" variant; minority with fins; before 2017: 16% with fins
Avenir	n.a.	RM pressfit	n.a.
Brexis	n.a.	Xentrax	n.a.
CLS Spotorno	mix of various offsets (125°, 135°=dominant, 145°)	Allofit	2017 and later: 89% Allofit Allocassic; minority Allofit-S and Allofit-C; before 2017: mix of Allofit Allocassic and Allofit-S; no dominant version
CLS Spotorno	mix of various offsets (125°, 135°=dominant, 145°)	Fitmore	99% "W SCR CONES" variant; individual cases with fins before 2017
Corail	87% Corail 2 standard; minority Corail 2 high-offset	Allofit	96% Allofit Allocassic; individual cases of Allofit-S and Allofit-C
Corail	60% Corail 2 standard; minority Corail 2 high-offset	Fitmore	100% "W SCR CONES" variant
Corail	68% Corail 2 standard; minority Corail 2 high-offset	Pinnacle	2017 and later: 45% Pinn 100 w/Gription variant; plus mix of Pinn multihole w/Gription, Pinn Sector w/Gription, Pinn BANTAM, Pinn 100/SECTOR without coating information; individual cases of SPIR HA multiholes; before 2017: 65% Pinn 100/SECTOR without coating information; plus mix of the other variants
Corail collared	mix of standard collared and Coxa Vara; no dominant variant	Delta motion	n.a.
Corail collared	mix of standard collared, high collar and Coxa Vara; no dominant variant	Gyros	87% "SANS PATTE"; minority DIA
Corail collared	mix of standard collared, high collar and Coxa Vara; no dominant variant	Novae TH/Bi-Mentum	83% Bi-Mentum PFR pressfit; minority PFR Plus and Sunfit/Novae E TH; individual cases of PFR revision cups may be included
Corail collared	mix of standard collared, high collar and Coxa Vara; no dominant variant; individual cases of Corail revision stems	Pinnacle	2017 and later: 62% Pinn 100 w/Gription variant; plus mix of Pinn multihole w/Gription, Pinn Sector w/Gription, Pinn BANTAM, Pinn 100/SECTOR without coating information; individual cases of SPIR HA multiholes; before 2017: 55% Pinn 100/SECTOR without coating information; plus mix of the other variants
Corehip	55% standard stem; minority VAR and VLG	Plasmafit	75% Plasmafit Plus; minority Plus 3
Exacta	n.a.	Jump system/JS traser	63% Jump System Press Fit with holes; minority with TRASER
Exacta S	n.a.	Jump system/JS traser	65% with TRASE; minority Jump System Press Fit with holes
Exception	71% standard stem; minority VAR	Allofit	59% Allofit Allocassic; minority Allofit-S and Allofit-C
Exception	88% standard stem; minority VAR	Avantage	n.a.
Exception	73% standard stem; minority VAR	Exceed	n.a.
Fitmore	2017 and later: 79% standard stem; minority offset; before 2017: 60% standard stem; minority offset	Allofit	82% Allofit Allocassic; minority Allofit-S and Allofit-C

Uncemented stem	Detail of stem included	Uncemented cup	Details of cup included
Fitmore	65% standard stem; minority offset	Fitmore	100% "W SCR CONES" variant
Fitmore	56% standard stem; minority offset	RM pressfit vitamys	n.a.
GTS	87% standard stem; minority VARA	G7 bispherical	n.a.
H-Max S	n.a.	Delta PF	n.a.
H-Max S	n.a.	Delta TT	n.a.
H-Max S	n.a.	Symbol DMHA/DS evol.	100% Symbol cups
Harmony	n.a.	Symbol DMHA/DS evol.	100% Symbol cups
Individual/custom hip	n.a.	April ceramic	n.a.
Individual/custom hip	n.a.	Pinnacle	54% Pinn SECTOR w/Gription; minority Pinn 100 w/Gription, Pinn BANTAM, Pinn 100 without coating information
Metafix	mix of standard vs collared and 125° vs 135°; no dominant variant	Trinity	n.a.
Minimax	n.a.	Versafitcup trio/ccl.	100% Versafitcup Trio cups; 34% of those are of the no-hole variant
Nanos	n.a.	R3	n.a.
Optimys	n.a.	Anexys	mix of Cluster, Flex and Uno; no dominant variant
Optimys	n.a.	RM pressfit	n.a.
Optimys	n.a.	RM pressfit vitamys	n.a.
Optimys	n.a.	Symbol DMHA/DS evol.	100% DS Evolution HA
Optimys	n.a.	Trident II	96% clusterhole; minority solidback
Polarstem	87% standard stem; minority Valgus	EP-fit	92% Ti-Pla/screw opt.; minority EP-Fit plus
Polarstem	92% standard stem; minority Valgus	HI	n.a.
Polarstem	86% standard stem; minority Valgus	Polarcup	n.a.
Polarstem	92% standard stem; minority Valgus and collared	R3	n.a.
Quadra-H	89% standard stem; minority short neck	Mpact	mix of two-holes and no-holes; no dominant variant
Quadra-H	98% standard stem; minority short neck	Versafitcup DM	n.a.
Quadra-H	93% standard stem; minority short neck	Versafitcup trio/ccl.	2017 and later: 100% Versafitcup Trio cups; 75% of those are of the no-hole variant; before 2017: 5% CC light
Quadra-P	75% standard stem; minority short neck and collared	Versafitcup trio/ccl.	100% Versafitcup Trio cups; 84% of those are of the no-hole variant
SBG	n.a.	R3	n.a.
SBG	n.a.	Xentrax	n.a.
SL-plus	n.a.	HI	n.a.
SL-plus MIA	n.a.	EP-fit	84% EP-fit plus; minority Ti-Pla/screw opt.
SL-plus MIA	n.a.	HI	n.a.
SL-plus MIA	n.a.	R3	n.a.
SMS	n.a.	Versafitcup trio/ccl.	100% Versafitcup Trio cups; 52% of those are of the no-hole variant
SPS evolution	n.a.	April ceramic	n.a.
SPS evolution	n.a.	April poly	n.a.
SPS evolution	n.a.	Liberty	n.a.
Stelia-Stem	n.a.	Ana.Nova hybrid	n.a.
Stelia-Stem	n.a.	BSC pressfit	60% pressfit 3 hole; minority Macro 3 hole
Symbol	mix of standard, collared and Vara; no dominant variant	Symbol DMHA/DS evol.	100% Symbol cups
Tri-Lock	mix of standard vs high offset; no dominant version	Pinnacle	68% Pinn 100 w/Gription variant; minority Pinn Sector w/Gription, Pinn BANTAM and Pinn 100 without coating information
Twinsys	n.a.	Anexys	mix of Cluster, Flex, Uno and Multi; no dominant variant
Twinsys	n.a.	RM pressfit	n.a.
Twinsys	n.a.	RM pressfit vitamys	n.a.
Twinsys	n.a.	Symbol DMHA/DS evol.	100% DS Evolution HA

n.a. (not applicable): this means that only one standard variant of the implant was registered; apart from different sizes or lateral implants, the implant group is homogeneous

Uncemented stem-cup combinations used in secondary OA

Uncemented stem	Detail of stem included	Uncemented cup	Details of cup included
Amistem-H	n.a.	Versafitcup trio/ccl.	100% Versafitcup Trio cups; 47% of those are of the no-hole variant
